

## Investment Opportunity

# Test-Bed Destination

The Northern Territory is uniquely positioned as a premier digital and physical test-bedding destination for developing, validating, and commercialising innovation for global markets.

Our test-bedding facilities, such as the Northern Australia Centre for Autonomous Systems' drone test flight facility, spans multiple sectors including test beds for clean energy transition, remote health and medical service delivery, resources and agriculture.

Innovation ecosystem

Knowledge economy

Start-ups

Sustainable clean energy integration

Abundant renewable energy resources

High speed international connectivity

Co-investment opportunities

## INNOVATION

### Investment Type

- Venture Capital
- Angel start-up

### Status

Open for investment

### Region

Northern Territory, Australia

### Project Value

Varied

Presented to market by

Explore 24 session at Darwin Innovation Hub. Pictured (L-R): Ian Gardiner, Founder Innovation Bay; Marisa Warren, Founder Managing Partner ALIAVIA Ventures; Priya Saiprasad, General Partner Touring Capital; Sachin Bhanot, Head of Investments, SEA & ANZ Prosus Ventures.

Located at Charles Darwin University (CDU), the CDU-RMIT Industry 4.0 TestLab will enable test and flight simulation of Uncrewed Autonomous Systems using the latest manufacturing technologies.

The Northern Territory's unique conditions create a distinctive advantage for testing and scaling innovations.

Success stories include:

- **SPEE3D** in Advanced Manufacturing [spee3d.com](http://spee3d.com)
- **SaltyGames** in Interactive Digital Entertainment [saltygames.com.au](http://saltygames.com.au)
- **Liandra** in the Creative Economy [liandraswim.com](http://liandraswim.com)

Our dynamic innovation ecosystem features a pipeline of high-potential start-ups, access to angel and venture capital investment partners, tailored support for founders, and a trusted Government ready to collaborate with you.
